The Honorable Mitch McConnell Majority Leader, United States Senate 317 Russell Senate Office Building Washington, D.C. 20510

The Honorable Charles E. Schumer Minority Leader, United States Senate 322 Hart Senate Office Building Washington, D.C. 20510

Re: Restrictions on press access during upcoming Senate impeachment trial

Dear Senators McConnell and Schumer:

The Reporters Committee for Freedom of the Press and the 57 undersigned media organizations write in opposition to restrictions on the press during the upcoming Senate impeachment trial of President Donald J. Trump.

It is our understanding that the Senate plans to impose restrictions on reporters in the Capitol building that will impair their ability to cover the impeachment trial proceedings, which are of abiding interest to Americans from across the political spectrum. The undersigned news media organizations echo concerns raised by the Standing Committee of Correspondents in its letter of January 14, 2020.

Absent an articulable security rationale, Senate leaders, the Senate Sergeant at Arms, and the United States Capitol Police have an obligation to preserve and promote the public's right to know. Reporters must have the ability to respond quickly to rapid developments and need reasonable access to lawmakers who wish to speak to the press. The reported restrictions on the use of electronic devices and on the ability of reporters to question lawmakers as they move about the Capitol, as well as the additional security screening, will hinder reporting without an obvious benefit for Senate security.

With these restrictions in place, journalists' efforts to share timely and accurate updates and commentary on the proceedings with the American public will be impeded. We ask that Senate security officials and the Senate Rules Committee reconsider these overly restrictive regulations.

Please do not hesitate to contact Gabe Rottman, director of the Technology and Press Freedom Project at the Reporters Committee, at grottman@rcfp.org with any questions.

Sincerely,

The Reporters Committee for Freedom of
